From Nursery Direct to You

Pomona United Nurseries

Nurserymen and Landscape Architects

Dansville, N. Y.

FALL 1923

WE PREPAY FREIGHT AND EXPRESS

Pomona Ship C. O. D.

direct to you and require no cash to apply on account when you place your order with us

POMONA DELIVER PREPAID BY FREIGHT AND EXPRESS ALL C. O. D. AND CASH ORDERS THAT AMOUNT TO \$7.00 AND OVER TO THE FOLLOWING STATES

Connecticut, Delaware, Illinois, Indiana, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia.

TO ALL OTHER POINTS ON ORDERS OF \$7.00 AND OVER WE PREPAY ONE-HALF OF THE TRANSPORTATION CHARGES

SPECIAL CASH DISCOUNT FOR FALL

If you prefer to send cash with order we will allow a **Special Discount of 8%** on all orders received for shipment this fall.

No discount allowed on C. O. D. orders.

Order Trees Early

Wherever you live it pays to order early. Send in your order just as soon as you know what you want **Pomona method of shipping C. O. D.**, requiring no cash with order makes it convenient for you to do this, and we want you to get your trees and plant them as soon as the weather conditions and the preparation of your land will permit, either spring or fall.

Buy from the firm who has first class two year trees and save disappointment later.

Our Shipping Season

We pack and ship all winter to Southern States. Our regular Spring packing and shipping season usually opens here the first of March and continues into the month of May. The planting season is not regulated by any particular month or day, nor by the state of vegetation where the planting is to be done, but **by the condition of the trees to be planted**. Hence, trees can be sent with safety from Dansville, N. Y., to localities several degrees south, even if they do not arrive until the ordinary transplanting season in that locality is passed.

In Filling Your Order

We will furnish varieties ordered insofar as our stock admits. In case we are out of a variety or size called for, we reserve the right to substitute another similar variety of equal merit or another size or grade of equal value. We shall do our best to make every shipment satisfactory and profitable to our patrons.

Guarantee

In the event that any nursery stock sold by us should prove untrue to name under which it is sold, we hereby agree, on proper proof of such untruthfulness of name, to rectify and replace the same or refund the purchase price. Except for such liability, and in respect to all nursery stock sold by us, we give no warranty, express or implied, as to description, quality, growth, productiveness or any other matter, and in case of error in variety the purchase price shall be the measure of damages, if order is accepted by us.

How to Remit

If you prefer to take advantage of our **8% discount** and send cash with order it should be made by check, Post Office Money Order, Express Money Order, Draft on New York Bank or Registered Letter. We disclaim all responsibility unless remittances are made as above directed.

Satisfied Customers Everywhere Endorse Our Policy of Fair Dealing

We offer first quality stock, truthfully described, sell it reasonably, deliver it promptly and treat everyone fairly in every transaction.

East Peoria, Ill., Nov. 20, 1922.
Pomona United Nurseries

Trees ordered reached me in fine shape, they are more than I really expected, such very fine Grape Vines, certainly am well pleased, and you shall have all my future orders.

Yours truly,
A. W. Hendricks.

Newark, N. J., May 23, 1923.
Pomona United Nurseries

My family have bought your trees for the past five years, and have found them very satisfactory.

The peach trees are wonderful, bearing the third year and this year the orchard is full of blossoms.

Yours truly,
A. E. Sayre.

Brooklyn, N. Y., May 11, 1923.
Pomona United Nurseries

I received trees in good condition, well pleased with them. I thank you for prompt attention and upright dealings.

Yours truly,
Julia A. Derby.

Verona, Pa., Aug. 22, '23.
Pomona United Nurseries

I bought trees from you seven years ago, they have done fine and all bearing now. **True to name.** Please ship the enclosed order as early as possible.

Very truly yours,
H. J. Smith.

Mt. Morris, Ill., April 24, 1923.
Pomona United Nurseries

The trees I bought of you 8 years ago all grew and have fruited **True to Name.**

Very truly yours,
F. J. Miller.

New York City, Apr. 16, 1923.
Pomona United Nurseries

Last spring I bought 100 apple trees from you. My Superintendent liked them so well that I feel I can afford to have you send me more.

Respectfully,
Jerome J. Lusk.

Syracuse, N. Y., May 11, 1923.
Pomona United Nurseries

Stock received in good shape, and entirely satisfactory, and I thank you kindly for the interest you have taken in having this business brought to a satisfactory close, will not forget your kindness when in need of more stock and will feel it my duty to say a good word for your firm whenever the opportunity occurs.

Yours truly,
T. R. Todd.

Sellersville, Pa., April 26, 1923.
Pomona United Nurseries

The trees ordered from you last year were received in good shape. I cannot get better trees than yours at any price, and they are all in blossom this year.

August Jansch.

Girard, Ohio, April 27, 1923.
Pomona United Nurseries

Received the 500 apple trees in fine condition, was very much pleased with them.

Earl Hinchliff.

Canandaigua, N. Y., May 7, 1923.
Pomona United Nurseries

The 4500 berry plants arrived O. K. and I appreciate the quality as well as the way they were packed.

Very truly yours,
E. M. Doolittle.

Notwithstanding the fact that it is our policy to sell on a C. O. D. delivery basis we cheerfully refer you as to our responsibility to any bank or business man here in Dansville, or if desired we can doubtless refer you to customers in your vicinity.

 Pomona Nurseries, Inc.

Progress

Service

Stability

Progress

Thirty-five years ago F. W. Wells engaged in growing and selling nursery stock direct to the planter with Green's Nursery Company. While there his original genius enabled him to organize the mail order system now used by the largest catalog firms in America.

A few years later he became Secretary of that corporation and after seventeen years of service he resigned to come to Dansville to organize and perfect a mail order business which carried his name, due to the fact that he was prominently known to all fruit growers of the state.

After four years of hard work he was obliged to leave this business then well established. He then organized a business of his own under the title of Wells Wholesale Nurseries. Two years later he purchased the business of Sheerin's Wholesale Nurseries and still later organized Pomona Nurseries, Inc., all of which he owned and conducted until after the war.

He then consolidated the above names under one title, Pomona United Nurseries, which business he is successfully conducting at this time and wish to thank many of the former customers of the firms mentioned for the loyal support during these years, which greatly exceeded his expectations, and we again renew our pledge of serving you as conscientiously and as earnestly as in the past.

Service

Planters all over the country deal with us as a matter of habit. They show that they appreciate truth and fairness. Every day we receive letters of appreciation like those printed in this catalog. They show convincing evidence that they welcome being served as we want them to be served. These customers and the new friends they make for us each year are proof that they do endorse our policy of square dealing.

Stability

The founder of this business has spent his whole life growing trees and dealing direct with the planter through the mails. He has a wider experience along these lines than any nurseryman here. Convincing proof of this is that Wells is the only Dansville nurseryman ever awarded first premium on fruit trees at New York State fair which he won two years in succession. You will receive catalogs from other firms offering attractive prices and making extravagant statements but we would ask you not to regard prices as the index to value. You should investigate the stability of the one making such offers before ordering. You will find the price quoted by us as low as first quality stock carefully graded can be sold by any of our competitors.

Be Not Disappointed

You, like many others, have probably been disappointed about getting the trees and plants you wanted because you waited too late to place your order. It is best to order early, getting first choice.

**Take Advantage of
Our C. O. D. Offer**

Pomona Grown Means Quality

There is a difference in trees. No two are alike, just as two dairy cows may have the same general appearance, yet one may be worth several times as much as the other as it nets the owner a larger profit while the other does not earn her feed, so may there be an equally great, if not greater difference in nursery stock—with one exception, the unprofitable cow can be sold while the unprofitable orchard can be disposed of only by pulling it out. **Pomona** trees have all the qualiteis which make early bearing, long lived and productive orchards. They are grown and handled in a thorough manner from the time the stock is planted until the trees are delivered to you. Many men who plant an orchard have but a vague idea of what constitutes a first class tree. Such a man can investigate carefully and buy from a reliable nursery—a nursery like the **Pomona United Nurseries** whose manager's life work has been growing trees for business and home orchards the past **thirty-five years** and who is personally acquainted with orchard and garden requirements in every part of

POMONA APPLE TREES 5½ to 7 ft. High

the union. But the experienced fruit grower, the man who knows a good tree, and then plants a second class one because it is cheaper, is to be pitied. Cheap trees are seldom, if ever, a bargain. The planter should insist having first class trees and be willing to pay a fair price for them.

What Age Trees to Plant

We grow and sell both one and two year old trees. **Pomona Trees** are as thrifty and vigorous as is possible to grow them. We prepare our land, cultivate and work with the trees so that we practically control their developments. In buying trees, please keep in mind that it is the most vigorous individual trees that are the best. Three and four year old trees might be somewhat larger but do not give satisfactory results. No first class nurseryman offers three and four year old trees. Trees that remain in the nursery row that long are bound to be stunted by over crowding, and they do not give satisfactory results. **Prof. Paddock and others say:** "The age of the tree at the time of setting seems to have little to do with the age at which the orchard comes into bearing, so that one really saves nothing in setting trees too large to start with."

Two Year Trees

Most orchardists prefer **two year old trees** and buy them from us year after year. **Prof. Waugh says:** "Some planters prefer one year old stock, and when it is large and well grown it is almost, or quite as good, as two year old stock. For the most part, however, two year old stock is to be recommended. **Anything older than two years is strictly undesirable.**"

Buy from the firm that has first class two year trees and save disappointment later.

We Have Extensive Plantings at Dansville and Geneva, N. Y.

Ship From the Nearest Point and by the Most Direct Route.

Pomona United Nurseries, Dansville, N.Y.

Among the great variety of fruits produced in our Country there is none so healthful, so easily grown and useful in so many ways in cooking, preserving and making jellies as the Apple, truly named the King of Fruits.

LEADING VARIETIES. For the convenience of our customers who may not be entirely familiar with the best and most profitable varieties, we have given full description of such sorts in black face type. In making your selection, it will pay you to choose from among those varieties.

RED ASTRACHAN—The best early dessert apple

Select Varieties of Apples for Different Apple Growing States

The following table shows just what apples are best adapted to your section. Whether you grow for home or market, you will find it helpful.

Variety	Sections best adapted to	Marketing Period
Baldwin	New Brunswick to Pennsylvania	Nov.-Mar.
Ben Davis	Maine to Georgia	Dec.-May
Delicious	New Brunswick to Virginia	Nov.-May
Duchess	Maine to Georgia	July, Aug.
Gano	Maine to Georgia	Dec.-May
Grimes Golden	New Brunswick to Georgia	Aug.-Oct.
Jonathan	New York to North Carolina	Oct.-Mar.
Maiden Blush	New York to Virginia	Sept., Oct.
McIntosh	New Brunswick to Maryland	Sept.-Jan.
Northern Spy	New Brunswick to Pennsylvania	Nov.-Apr.
N. W. Greening	Maine to West Virginia	Oct.-Apr.
R. I. Greening	Maine to Pennsylvania	Nov.-Mar.
Rome Beauty	Maine to West Virginia	Nov.-May
Stayman Winesap	Maine to Georgia	Oct.-May
Wealthy	Western Great Lakes Region	Oct.-Jan.
Williams Favorite	New York to Virginia	July, Aug.
Winesap	Maryland to Georgia	Nov.-June
Winter Banana	Maine to Georgia	Nov.-Apr.
Yellow Newtown	New York to Virginia	Nov.-Aug.
Yellow Transparent	New Brunswick to Georgia	July, Aug.
York Imperial	Pennsylvania to North Carolina	Oct.-Jan.

Red Astrachan. The well known early variety. Fruit large, roundish, nearly covered with deep crimson, juicy, rich, acid and fine. Highly regarded on account of its fine appearance, earliness and hardiness. Tree a vigorous grower and sure bearer. Aug.

Early Harvest. Medium to large; pale yellow; fine flavor. Tree a moderate, erect grower, and a good bearer; a beautiful and excellent variety for orchard and garden. Aug.

Sweet Bough. Large, pale greenish yellow; tender and sweet. Moderate grower and a good bearer. August.

Early Strawberry. Medium, striped with deep red; tender, sub-acid and excellent. August.

Williams' Favorite. A bright red apple, of mild, agreeable flavor. Aug. to Sept.

Propagated Where the Best Trees Grow

Yellow Transparent. A Russian variety. Tree an upright grower and a very early and abundant bearer. Fruit of good size; skin clear white, turning to a pale yellow; flavor acid and very good.

Carolina Red June. Small or medium, deep red, quality good. Tree hardy and a fine grower. August.

Golden Sweet. Large, pale yellow, tree a good grower and very productive. August.

Autumn Strawberry. Medium, streaked, tender, juicy, fine and productive. Sept. to Oct.

Duchess of Oldenburg. A Russian variety of large size and beautiful appearance. Roundish, streaked with red and yellow, flesh white, tender, juicy and fine. A Cooking apple of highest quality and esteemed by many for dessert. Succeeds well in the Northwest.

Fameuse. (Snow Apple)—Hardy; Medium size; deep crimson; flesh in snowy white, tender, melting and delicious. Tree vigorous with dark wood; one of the finest dessert fruits, and valuable for market; succeeds particularly well in the North. Nov. to Jan.

Maiden's Blush. Medium size, flat, quite smooth and fair; pale yellow with beautiful red cheek. Tender, sprightly, pleasant acid flavor. Tree vigorous and productive. Sept. and Oct.

Fanny. Large, deep rich crimson, tender, juicy, pleasant. Tree vigorous and very productive. August.

Fall Pippin. Very large, roundish, oblong; yellow; flesh tender, rich and delicious. Tree spreading, and a fine bearer. September.

Alexander. A Russian variety, very hardy and abundant bearer. Fruit large, deep red; flesh white, crisp, tender, good flavor. Oct.

Pumpkin Sweet. (Pound Sweet.)—A fine, large, yellow sweet apple. Excellent for baking or stewing. October to January.

Wealthy. This is a beautiful, hardy winter apple, originating in Minnesota. Fruit large, roundish; skin smooth, oily, covered with a dark red. Flesh white, tender, juicy, vinous, sub-acid; quality very good. In season it differs somewhat, according to locality; in New York and neighboring states its season is Dec. to Feb., and owing to its early bearing qualities it is planted largely as a filler.

Gravenstein. An apple of excellent quality. For culinary purposes it is perhaps unexcelled by any variety of its season. Fruit large, uniform in size, skin thin, tender greenish yellow overlaid with dark red. Sept.

FAMEUSE—The Best Late Fall Apple

DELICIOUS RED APPLE

Very Productive. So largely advertised and highly spoken of by leading fruit growers

Hubbardston Nonesuch. Here is an apple that is not surpassed the world over for large size, great beauty of color or for excellent quality. Fruit large, roundish; color bright red or yellow skin; flesh yellow, with a fine, rich, aromatic flavor, sub-acid. November to January.

McIntosh Red. An exceedingly valuable Canadian sort; medium size, nearly covered with dark red; flesh white, fine, very tender, juicy and refreshing. A good annual bearer of fair, handsome fruit. Resembles the Fameuse, but larger and more hardy, and fully equal in quality to this standard sort. Its season of ripening varies according to the location.

Roxbury Russet. Medium to large. Surface rough, greenish covered with russet. Tree free grower, spreading; a great bearer. Keeps until June.

Esopus Spitzenburg. Large, deep red with gray spots, and delicately coated with bloom; flesh yellow, crisp, rich and excellent. November to April.

Stayman's Winesap. Fruit medium, large; skin green and yellow, red-striped, flesh yellow, firm; quality excellent.

Jacob Sweet. A large showy apple, green or yellowish, often with bright blush. One of the best sweet apples. October to April.

Gillflower. (Black.) An old dessert apple; tree a good vigorous grower and a reliable cropper. October to February.

Delicious. This apple is approximately named for its handsome appearance as well as high quality. Everyone should plant one or more trees. Fruit large, oblong, nearly covered with bright red; of the highest quality.

King of Tompkins County. One of the standard varieties grown for commercial purposes, and gives the greatest satisfaction when top-worked on some hardier variety. The fruit is of a bright red color, large and uniform. The flesh is yellowish, crisp, tender, juicy and sub-acid, and of the best quality.

Grimes' Golden. Medium to large size; skin golden yellow, sprinkled with gray dots; flesh crisp, tender, juicy, sprightly, very good to best. Grown in the South and Southwest. Jan. to Apr.

Smoke House. This grand apple is a great favorite in Pennsylvania and doesn't seem to be known much elsewhere. Tree a vigorous grower, healthy, hardy and a reliable cropper. The fruit hangs well to the tree and is of good color and quality. October to March.

Gano. A fine hardy commercial sort. Very richly colored, uniform in size; keeps until March; fruit very handsome, flesh pale yellow, mild, sub-acid, good. Large, good marketing and keeping.

Yellow Belleflower. A hardy apple of large size, a beautiful golden color, often with red, blush; conical in shape. Flesh very tender and fine grained, crisp, juicy, sub-acid, of excellent quality. October to February.

Propagated Where the Best Trees Grow

A Baldwin Orchard will start an income for you that will be lasting. A few trees around the home will afford pleasure and profit, also beautify your grounds and add value to your place.

Baldwin. A great market apple, very productive of fair handsome fruit. No variety yields larger crops or bears shipment better, or is more attractive in color, size and shape, than the Baldwin. It is esteemed as an eating apple, and for cooking. For a commercial orchard it can be relied upon. Large, bright red, crisp, juicy and rich; tree vigorous, upright and productive.

Rome Beauty. A large and handsome, apple, almost entirely covered with a bright red; of high quality. The flesh is tender, juicy and highly flavored. It is a popular apple over a wide range of country. Dec. to March.

Newtown Pippin. (Albemarle Pippin) — This is one of the best apples for shipping to foreign markets. When fully ripe it is yellow with red cheek and a smooth skin.

N. W. Greening. A hardy winter apple of very large size, much larger than R. I. Greening. This apple is highly prized in localities where the R. I. Greening will not succeed. "One of the best of the hardy kinds." Round and symmetrical in shape; color, green, which turns yellow at full maturity; flesh yellowish, fine grained, tender, juicy; sub-acid; quality good.

Bailey Sweet. A beautiful red apple of good quality. October to January.

Seek-No-Further. Medium to large, slightly russeted with dull red stripes; tender, rich, spicy and fine; good grower and bearer. November to February.

Boiken. Medium size; yellow, tart, acid, long keeper. A very good cooking apple.

Wagener. Medium to large; deep red in the sun; flesh firm, sub-acid, and excellent; very productive, bears very young. Dec. to May.

Winter Banana. Perfect in form; golden yellow, and beautifully shaded with bright crimson red; flesh lemon-yellow, fine grained, sub-acid, rich, aromatic flavor, and of the highest quality. Nov., to Jan.

York Imperial. A fine, hardy, large, red apple; succeeds over a wide range of country. A fine market sort, bringing highest prices. Fruit large, oblong, smooth, skin yellow and nearly covered with light to dark red; flesh yellow, juicy, firm, sub-acid, good. November to February.

Northern Spy. One of the standard and best known varieties. Has long been a favorite among commercial sorts in northern New England, Michigan, New York and adjoining states. Dec. to Mar.

SELECT VARIETIES OF CRAB APPLES

Whitney's Sedling. Large, averaging one and one-half to two inches in diameter; skin smooth, glossy, green striped, splashed with carmine; flesh firm and juicy.

Transcendent. Medium to large; roundish, oblong; golden yellow, with a rich crimson cheek, covered with a delicate white bloom; flesh yellow, crisp and when fully ripe, perfectly hardy.

Large Red Siberian. About an inch in diameter, grown in clusters; yellow, lively scarlet cheek. Tree erect, vigorous, bears young.

Hyslop. Almost as large as Early Strawberry Apple; deep crimson; very popular on account of its large size, beauty and hardness. Keeps well into the Winter.

Jonathan Apples

Rhode Island Greening. This large and superior winter apple is famous over a large extent of country, and is more highly prized for cooking and eating than any other variety. It is a good keeper but will keep better if picked early. This Greening is a beautiful yellow color when ripe, and is a most abundant yielder. March to April.

Sutton Beauty. Fruit large, waxy yellow striped with crimson; flesh white, tender, juicy, mild acid; quality good and a remarkable keeper; very productive. Dec. to Feb.

Golden Russet. Medium to large size, dull russet, with a tinge of red on the exposed side; flesh greenish, crisp, juicy, and high flavored; hardy, bears well. November.

Ben Davis. Succeeds wherever apples are grown. There is no apple that has more favors on account of its hardiness, productiveness, beauty and endurance in shipping.

Jonathan. A beautiful red apple, highly flavored and of excellent quality, being tender, juicy, spicy, and rich—a splendid family sort and highly profitable for market. Productive. Nov. to Apr.

Mammoth Black Twig. The tree is a strong grower, a regular and abundant bearer. A good winter apple. Deep red; sub-acid, very high flavored.

Stark. Fruit large roundish; skin greenish yellow, much shaded with light and red, and sparkled with brown spots; flesh yellowish. January to May.

Tolman Sweet. Season, winter. Medium to large size; color, light yellow; flesh, white, firm, rich, and very sweet. Excellent for winter baking. A late, well known favorite.

Twenty Ounce. Very large; greenish, becoming yellow, mottled and splashed with bright red. Flesh tender and juicy. September.

Pomona Block of 2 Year Apple Trees (reduced). Buy for the firm who has first class 2 year trees and save disappointment later. TAKE ADVANTAGE OF OUR C. O. D. OFFER.

Propagated Where the Best Trees Grow

Dwarf Fruit Trees Are the Solution for Small Backyards

The dwarf pear tree trained in a novel way, suitable for use against a garage or as a screen

Select Varieties of Dwarf Pears

Dwarf Pear Trees often bear the same year planted, and the trees occupy but little room in the garden. They can be planted very closely together and kept headed back. There is scarcely a city or town lot so small that room cannot be found for a few dwarf fruit trees. Their hardiness makes it possible for anybody, anywhere, to produce delicious fruits.

We offer the following list of superior varieties of Dwarf Pear Trees. These are about all the varieties that will succeed as Dwarf trees. (See description of these on other pages.)

Bartlett, Seckel, Clapp's Favorite, Duchess, Anjou, Kieffer, Flemish Beauty and Wilder Early.

Special Price for Dwarf Pear

Extra Size Trees, 2 yr., 4 to 5 ft., XXX 85c each; 10 for \$8.00; 100 for \$75.00.

Orchard Size Trees, 2 yr., 3 to 4 ft., XX 75c each; 10 for \$7.00; 100 for \$65.00.

Select Varieties of Dwarf Apples

Like Dwarf Pear Trees they come into bearing much earlier than Standard Trees. Their low broad heads are within reach, so that apples or pears can be easily picked. You can plant your garden full of dwarf fruit trees and still grow strawberries and vegetables. With dwarfs some varieties will bear the second year, and will bear a full crop the fourth year.

We can supply the following varieties: Yellow Transparent, Granvenstein, Baldwin, McIntosh, Alexander, Duchess, Grimes' Golden, Yellow Belleflower, Twenty Ounce, Delicious, Wagener, Jonathan, Wealthy, Opalescent, Red Astrachan.

Special Price for Dwarf Apple

Extra Size Trees, 2 yr., 4 to 5 ft., XXX, \$1.00 each; 10 for \$9.50.

Orchard Size Trees, 2 yr., 3 to 4 ft., XX, 90c each; 10 for \$8.50.

CERTIFICATE

No. 2418

STATE OF NEW YORK

Certificate of Inspection of Nursery Stock

Department of Farms and Markets

This is to certify that the stock of Pomona United Nurseries, of Dansville, County of Livingston, State of New York, was duly examined in compliance with the provisions of article 14 of the Farms and Markets law, and was found to be apparently free from any contagious or infectious disease or diseases, or the San Jose scale, or other dangerously injurious insect pest or pests. This certificate expires Sept. 1, 1924.

Dated Albany, N. Y., Sept. 25th, 1923.

BERNE A. PYRKE, Commissioner.

BY GEO. G. ATWOOD, Director Bureau of Plant Industry.

Select Varieties of Peaches

Peach trees are easily cultivated, their comparative freedom from disease, the short period before they become productive, with the immense demand for the fruit and the facilities with which it may be shipped to distant markets, make peach growing extremely profitable, and there are few kinds of fruits more highly prized and more keenly relished.

LEADING VARIETIES. For the convenience of our customers who may not be entirely familiar with the best and most profitable varieties, we have given full description of such sorts in black face type. In making your selection, it will pay you to choose from among those varieties.

CHAMPION PEACH
Creamy White Freestone

Champion. Tree and fruit buds extremely hardy—has stood eighteen degrees below zero and produced a full crop the following summer. The flavor is delicious, sweet, rich and juicy; skin creamy white with red cheek, strikingly handsome. A good shipper. Last of Aug.

Kalamazoo. Large, golden yellow, with crimson cheek; flesh thick yellow, superb quality, small pit. Strong grower, early bearer, hardy and productive.

Salway. Large; deep yellow, red cheek. Flesh yellow, juicy. October.

Niagara Peach. One of the best medium early yellow peaches that has been introduced for many years past is the Niagara. The fruit of the Niagara peach is much like that of Early Crawford in appearance, being large, oval, yellow with brilliant red cheeks. The season is medium early, coming in just before Elberta.

Beer's Smock. Large, yellow, with red cheek; flesh yellow and of the very best quality for the season; a regular and enormous bearer, making it very desirable for market purposes.

Rochester. Early, good size, yellow free stone of fine quality, ready for market the middle of Aug.

Triumph. Earliest yellow-flesh peach, with good eating and shipping qualities, sure and abundant bearer; strong, vigorous grower.

Willett. Bright yellow, mostly covered with red. Flesh juicy and rich. September. Freestone.

Gold Drop. Medium size; hardy, very productive, quality the best, early bearer. Last of September.

Wager. Medium, yellow, good quality. Tree hardy and productive. A profitable late variety. Last of September.

Hiley. A large, early, white Peach highly colored on sun-exposed side. A profitable commercial variety, very hardy in wood and bud.

Matthews' Beauty. Fruit large; ripens two weeks later than Elberta. Skin golden yellow, streaked with red; flesh yellow, firm, excellent flavor. Perfect freestone.

Reeves' Favorite. Yellow with beautiful red cheek. Tree fine and large; bears crop regularly.

Stump. Roundish, white, with bright red cheek; flesh white, juicy and good. Late. Sept.

Sneed. Very early; fruit creamy white with crimson blush; productive; not inclined to rot.

Hill's Chili. Medium; deep yellow shaded with dark red. Hardy, vigorous and productive. Good market variety. First of September.

ROCHESTER PEACH

Pomona Special Wholesale Price for all varieties of Peach Trees

Medium Size Trees	4 to 5 Feet	XX	60 cents each	10 for \$5.50	100 for \$32.50
Orchard Size Trees	3 to 4 Feet	X	55 cents each	10 for \$5.00	100 for \$25.00

ELBERTA—America's Greatest Shipping, Market and Canning Peach

Crawford's Late. Of large size; skin yellow or greenish yellow, with dull red cheek; flesh yellow. Tree vigorous; moderately productive; one of the finest late sorts. Last of Sept.

Fitzgerald. Fully equal to Crawford's Early in size, quality and color, a very early bearer; hardy, succeeding in Canada and in Michigan perfectly; fruit large, brilliant yellow with red cheek; highest quality.

Carman. A very hardy peach, ripening at same time as Early Rivers, yet almost as large as Elberta. Skin pale yellow with blush on sunny side; flesh white, tender, sweet and melting. Ships well. August.

Early Rivers. Large; color creamy white, with a delicate pink cheek, flesh melting, with a remarkably rich, racy flavor. Middle of Aug.

Greensboro. A valuable early white peach. Much larger in size than Alexandre, ripening about the same time. July.

Crawford's Early. A magnificent large yellow peach of good quality. Tree vigorous and prolific; its size, beauty and productiveness make it one of the most popular varieties. Season beginning of September. This valuable peach has long been a favorite for large size, beauty and quality of fruit.

Belle of Georgia. Large; white, with red cheek; flesh white, firm and of excellent flavor. Tree a rapid grower and very productive. July.

Elberta. A valuable, large peach of good quality. The best orchard variety, and valuable also for planting in the garden. Elberta is hardier in bud than many varieties, therefore a more uniform cropper. Elberta is large, yellow, with red cheek, juicy and high-flavored, flesh yellow; freestone. Season medium early, following quickly upon Early Crawford.

Crosby. A remarkably fine peach for the home use or market. Ripens just before Crawford's Late. Middle of September.

Chair's Choice. Deep yellow, with red cheek; flesh yellow and very firm. October.

Engle's Mammoth. Large, round, suture slight; yellow with red cheek; flesh yellow, stone small, free; sweet, rich, juicy.

Hale, J. H. Large, attractive, yellow flesh, fine grained and unusually solid.

Foster. Large, deep orange red, becoming very dark red on the sunny side; flesh yellow, very rich and juicy.

Banner. Fruit large; deep yellow with crimson cheek; flesh yellow, excellent quality, rich, firm; equal to any as a keeper and shipper.

Crosby Frost-proof Peach. A fine, handsome, yellow peach, with remarkably small pit, that bears regular crops north of the peach belt. Quality delicious; season follows quickly after Early Crawford.

Smock Large size; light orange yellow with red cheek. Flesh yellow, juicy and rich. October.

Yellow St. John. One of the best of the early yellow varieties. Of medium size, orange yellow with a red blush on sunny side.

Butler, Pa., Feb. 15, 1923.
Pomona Elbertas are the finest Peach
I ever tried to grow.
F. W. HOLFMAN.

Select Varieties of Cherries

The Cherry grows best on gravelly soil, and there attains its highest perfection, but will do very well in almost any situation except a wet one. It is one of the most ornamental of all fruit trees which, with its delicious and refreshing fruit, makes it very desirable for planting near the dwelling, where beauty and shade, as well as fruit, are so desirable.

The most popular Cherry MONTMORENCY ORDINAIRE hardy and productive

Montmorency Ordinaire. The most popular of hardy cherries for market and home use. This cherry is planted largely. The fruit is in great demand by canning factories and others, and sells at fancy prices. Montmorency has been growing in popularity all over the country each year, so that it has been almost impossible to grow trees fast enough to keep up the demand. It is of large size, light red in color, stem rather short. The tree is very hardy and a vigorous grower. The trees bear fruit soon after planting.

Olivet. A tree of this variety should be in every garden. The fruit is very large, has a shining deep red color; tender, mild sub-acid flavor. Finest table and canning Cherry you can get. Ripens in June.

Louis Phillippe. Large dark red; flesh tender, mildly acid, good to best. Mid-July.

May Duke. Large red; juicy and rich; an old excellent variety; vigorous, productive. June.

Early Richmond. One of the most valuable and popular cherries, unsurpassed for cooking purposes. It is the good old variety that yields such marvelous crops in the gardens. The most hardy of all varieties, uninjured by the coldest winters. Tree slender in growth, with a roundish spreading head, exceedingly productive. Ripens through June.

Ostheime. Very hardy, fruit large and roundish. Flesh is liver colored, tender, juicy and almost sweet, although a sub-acid cherry. Quality good. Middle of July.

Wragg. A Russian variety. One of the hardest cherries, vigorous and productive, medium size, dark purple, fine quality and has produced annual crops at the northernmost limit.

English Morello. The most valuable late cherry. Easily grown, producing a heavy crop every year. Fruit dark red, quality good, with a rich, acid flavor; late. Tree very hardy, for extremely cold latitudes.

Propagated Where the Best Trees Grow

Select Varieties of Cherries

The fruit of which is heart-shaped with tender, sweet flesh and the trees rapid growers. With my experience in growing cherries I by all means urge every owner of a home with a little space to plant Sweet Cherry Trees. No fruit is more liked by members of the family than this delightful fruit when fresh picked, stewed or preserved.

Napoleon Cherry. Fruit very large, oblong, pale yellow, with a bright red cheek in the sun. Flesh very hardy, brittle, reddish at stone, juicy, and sweet. Tree a vigorous and erect grower, very productive. Early in July.

Bing. One of the most delicious Sweet Cherries grown. Tree very hardy and vigorous with heavy foliage. It succeeds in the East better than most sweet varieties. Fruit is large, dark brown or black and of very fine quality.

Black Tartarian. Very large; bright purplish black; half tender; juicy, very rich. Tree a remarkably vigorous and erect grower, and an immense bearer. One of the most popular varieties in all parts of the country. Ripe last of June.

Gov. Wood. One of the best. Clear, light red; tender and delicious. Tree vigorous and productive. End of June.

NAPOLEON CHERRIES (Reduced)

Sweet and Sour Cherry Trees, 1 Year, 3 Feet and Up

Lambert. A valuable Sweet Cherry of the largest size. Skin dark purplish red, almost jet-black when ripe. Flesh firm, rich and juicy. Tree hardy, a strong grower and an enormous bearer.

Yellow Spanish. Large, pale yellow, with red cheek; firm, juicy and excellent, one of the best light colored cherries; productive. Last of June.

Rockport. Fruit large, heart-shaped; skin pale amber; sweet and excellent. July.

Royal Ann. (Napoleon)—A valuable cherry of the largest size. Pale yellow, with bright red cheek; very firm, juicy and sweet; valuable for canning.

Black Heart. (Black Ox Heart)—An old variety; deep black; flesh tender, sweet. July.

Schmidt's Bigarreau. Black; flesh dark, firm. Very productive. Is one of the best firm fleshed cherries of the largest size. July.

Windsor. Fruit large; liver colored, resembling the Elkhorn, ripening a few days after that variety; flesh remarkably firm, of fine quality. Tree hardy and prolific. Vigorous. Middle of July.

**Select
Varieties
of
Standard
Pear
Trees**

Bartlett. Large, coloring when fully ripe to waxy yellow with red blush; juicy, melting, highly flavored. The tree bears early and abundantly. May be grown either as dwarf or standard, but succeeds best as standard. Aside from the fact that it bears early, regularly and abundantly, the Bartlett pear is justly popular on account of its size, beauty and excellence. It originated in Berkshire, Eng., about 1770. When introduced to this country its name was lost. Since it was cultivated and discriminated by Enoch Bartlett, it became universally known as the Bartlett. Aug. and Sept.

Seckel. Small size; yellowish russet, with red cheek; flesh whitish, buttery, very juicy and melting. The richest and finest variety known and extensively planted all over the country. A prolific bearer. Sept. to Oct.

CLAPP'S FAVORITE

• High Quality, Profit Making Pear

Beurre Clairgeau. Very large; light yellow, shaded with crimson and russet; an early and abundant bearer. January.

Howell. Large size; light-waxen yellow, sweet and melting; excellent quality; a strong and hardy grower and good bearer. Sept. to Oct.

Flemish Beauty. Large size; greenish yellow and brown; rich and juicy. An old and highly esteemed variety; a strong grower and a great bearer; hardy and desirable. Fruit almost covered with light russet, becoming reddish-brown when ripe. Large, beautiful, melting, sweet and rich.

Wilder. Handsome, melting, sweet, pleasant, with small core, fine grained, tender and juicy. Greenish yellow with brownish red cheeks. August.

Kieffer. A vigorous grower, an early and regular bearer and very productive, fruit large, rich yellow, tinged with red, somewhat russety, flesh white, buttery and juicy. A good canning pear. October.

Seckel. Color; bright red on one side and light golden on the other. Very hardy; bears young, and is an enormous producer.

Anjou. For late fall and early winter use, there is no better variety. Quality Equal to Bartlett. A close second to Bartlett in public favor. Distributes its fruit well, and sands up under a load better than Bartlett. Equal in quality to Bartlett and holds up longer.

LEADING VARIETIES. For the convenience of our customers who may not be entirely familiar with the best and most profitable varieties, we have given full description of such sorts, in black face type. In making your selection, it will pay you to choose from among those varieties.

Bosc. (Beurre Bosc.) Standard only. Very large, a beautiful russet colored pear, with a very distinct shape, having a very long neck, of very high quality having a distinct rather melting, buttery flavor. This pear is generally conceded to be a very high quality pear. It is a moderate grower, but on account of being very difficult to propagate in the nursery row is seldom offered for sale by nurserymen. No home fruit garden is complete without this variety. Oct. to Dec.

Winter Nelis. Medium size, greenish yellow, spotted with russet. Melting and of finest quality; bears heavy crops. Nov. to Dec.

Clapp's Favorite. Large Size; pale lemon yellow; flesh fine grained, juicy, melting, rich and buttery, earlier than Bartlett and resembling the Flemish Beauty in growth. A good grower and productive.

President Drouard. Highly recommended for its rich flavor and great keeping qualities. Tree a vigorous grower. Fruit large and handsome; melting and juicy. Mar. to May.

Lawrence. Above medium size, yellow, tender and melting; quality best; one of the best winter pears. In season during mid-winter.

Sheldon. Large size; roundish; greenish yellow, mostly covered with thin light russet; very juicy, melting, sweet and vinous; a fine grower and good bearer. Oct. to Nov.

Duchess d' Angouleme. Very large; of greenish yellow, with patches of yellow and a dull red cheek; a vigorous and strong grower and a good bearer while quite young. Oct. to Nov.

Louise Bonne de Jersey. Large size, pale green in the shade but overspread with brownish red in the sun; very juicy and melting with a rich and excellent flavor. September to October.

ANJOU PEAR—Delicious Flavor

Select Varieties of Plums

Burbank. The best and most profitable among growers for market; ripens 10 to 14 days after Abundance. Burbank is one of the best of Japan Plums. Unsurpassed for beauty and productiveness, as well as great hardiness of tree, with a foliage so perfect as to contribute in an essential degree to its health. Fruit large, oval often with a slight neck; skin reddish purple; flesh yellow, juicy and good. Its beauty and value as a market variety is unsurpassed.

Wickson. Fruit remarkably handsome, very large, long, heart-shaped, color deep maroon red covered with white bloom; flesh firm and meaty, yellow, rich and aromatic; cling; pit small. Tree an upright vigorous grower. Excellent keeper and shipper, is being planted largely for market. Early September.

Shipper's Pride. The fruit is of a large size, dark purple; excellent for canning and an unusually good shipper.

Shropshire Damson. An english variety of great merit for preserving. Large. Oct.

Yellow Egg. A large beautiful egg-shaped yellow plum. Last of August.

Geuii. Fruit large, roundish, oval; skin dark purple, covered with thick blue bloom; flesh yellow.

General Hand. Very large, oval; golden-yellow; juicy, sweet and good. First of Sept.

Reine Claude. A delicious greenish-yellow Plum, spotted with red. It is of the finest quality and the housewife's ideal Plum for canning and preserving. September.

Burbank Plum Fruiting on a wire Trellis

Abundance. The popular plum. Tree thrifty, hardy and beautiful; fruit large, showy and good, richly perfumed. "From one Abundance tree we picked ten pecks of fruit. The quality is excellent. When fully ripe they are full of juice. The flesh is tender, and there is mingled with the plum a peach flavor that is refreshing and agreeable." First of August.

Beauty of Naples. Size large, color greenish-yellow, flesh firm, juicy and very fine flavored. September.

Hungarian Prune. (Pond's Seedling) — Very large, dark red, juicy and sweet. September.

Felleberg. A fine late prune; oval, purple; flesh juicy and delicious. September.

German Prune. A large, long oval variety, much esteemed for drying; color dark purple; of very agreeable flavor. Sept.

Coe's Golden Drop. Large and handsome. Last of September.

Grand Duke. Fruit oval with a short neck. Skin dark, almost a darkish purple.

Green Gage. Small; considered the standard of excellence; slow grower. August.

Red June. Recommended as "by all odds the best Japanese Plum, ripening before Abundance." One of the vigorous, upright growers; productive; fair size, vermilion red; pleasant quality. Ripens a week before Abundance. August.

LOMBARD PLUMS—Tree Hardy and Productive

Lombard. A great favorite because it is a wonderful and early bearer and a hardy strong grower.

Imperial Gage. Fruit large, oval; skin pale green, flesh juicy, sweet, rich and excellent.

Niagara. Unsurpassed for beauty and productiveness as well as great hardiness of tree. Fruit large, oval often with a slight neck.

Monarch. It is roundish oval in shape and dark purplish blue in color.

Bradshaw. This is a very large, dark violet red plum, very juicy and good. The quality of Bradshaw is very fine and is very popular wherever planted.

Tatge. Evidently a seedling of the Lombard. Is larger, more nearly round, darker color and finer quality than that well known and excellent variety.

Pond's Seedling. Tree a vigorous grower and most abundant bearer. One of the most attractive in cultivation. September.

York State Prune. Originated in Dansville. Large size and resembles German Prune in shape and color. Small stone and very free. Very valuable for commercial planting.

Moore's Arctic. A very abundant and early bearer. Fruit ripens first of September. This is a purplish-black Plum with a thin blue bloom; flesh greenish-yellow, juicy and sweet.

Select Varieties of Nut Trees

Chestnut American Sweet is adapted to a great portion of this country. It is valuable as a nut producing tree, timber and ornamental purposes.

Wholesale Price of 3 to 4 ft. trees, 95c each. 4 to 5 ft., \$1.25 each. 5 to 6 ft., \$1.75 each.

Chestnut Spanish. A handsome round-headed tree, producing abundantly, very large nuts that find a ready market.

Wholesale Price of Spanish Chestnut trees, 3 to 4 feet, \$1.00 each.

Butternut. A fine native tree producing a large, longish nut, which is prized for its sweet, oily nutritious kernel.

Wholesale Price of Butternut trees, 4 to 6 feet, \$1.50 each.

Pecans. This nut is very productive.

Wholesale Price, 3 to 4 feet, \$1.50 each.

Walnut, English. A fine, lofty, growing tree, with handsome, spreading head; produces large crops of thin-shelled, delicious nuts which are always in demand at good prices. Every home garden should have one or more English Walnuts. Tree very hardy.

Wholesale Price, 3 to 4 feet, \$1.75 each.

Walnut, Black. The common well-known Black Walnut, the wood of which is most beautiful and valuable. It is very productive in nuts, which are liked by many.

Wholesale Price, 4 to 6 feet, \$1.50 each.

Plymouth, Ind., April 13, 1923.

I bought trees from your nursery for six years and am well pleased with all of them.

Yours truly, NICK FLECK.

The leading characteristics of the apricots are extreme hardiness, early bearing, productiveness, and freedom from disease. Every garden should have one or more trees. In the selection of choice garden fruits it is quite indispensable. It succeeds well trained against a house wall, fence or trellis, leaving the open ground for other trees.

Alexander. Very hardy, an immense bearer; fruit large, yellow, flecked with red; very beautiful, sweet and delicious. July.

Gibb. Tree hardy, grows symmetrical, productive; fruit medium, yellowish, sub-acid, juicy and rich; the best early variety, ripening soon after strawberries. Last of June.

Alexis. Very hardy; an abundant bearer; yellow, with red cheek; large to very large; slightly acid, rich and luscious. July.

J. L. Budd. Tree a strong grower and profuse bearer, fruit large, white with red cheek; sweet juicy, with a sweet kernel, as fine flavored as an almond; the best late variety.

Harris. Equal in size and quality to the best cultivated, recommended for its hardiness and good bearing qualities. June 20th to July 1st.

Montgamet. Deep yellow, one of the best for preserving. Sub-acid and of good quality. Tree vigorous and productive.

St. Ambroise. One of the largest and finest apricots, ripening early in August. Season early to medium.

Select Varieties of Quince

The Quince is a fruit very useful for cooking, canning and preserving and should be more generally planted. It always brings good prices on the market. Very desirable in making preserves, as it imparts the fine quince flavor to any other fruit with which it is prepared.

A PLATE OF ORANGE QUINCE

Rea. (Rea's Mammoth)—A large and fine variety of the Orange Quince. Rich and aromatic, one of the largest and handsomest. Bears young. A strong grower and productive.

Van Deman. A strong grower, the hardiest, surest and youngest bearer. Fruit golden, big, fine flavored. Tree productive.

Champion. A good variety, but ripens rather late for some sections. One of the best for section not subject to early frosts.

Meech's Prolific. A large, late ripening variety; one of the best.

Missouri Mammoth. Rich and aromatic, one of the largest and handsomest. Bears young and prolifically.

Orange. Large; roundish, of a bright golden yellow color, flesh firm and tough until cooked, when it becomes tender, juicy and of excellent flavor. Tree has rather slender shoots and oval leaves; very productive. This is the variety most extensively cultivated for the fruit. Ripe in October.

Pomona Varieties of Grapes at Reduced Prices

The Grape is one of our most delicious fruits. Contrary to common opinion it does not demand a special or particular kind of trellis. We have seen them bear by the bushel growing on a garden or yard fence. Hardy, thrifty, free of disease, the grape is our standby. Grows everywhere. Should be in every homeyard.

CONCORD
The Best Black Grape

Concord. Bunch large, shouldered, compact; berries large, covered with a rich bloom. Vine a strong grower, very hardy.

Campbell's Early. (Black)—Strong grower, with large, healthy foliage; productive, its keeping and shipping qualities are equaled by no other early grape.

Moore's Early. (Black)—Bunch and berry large, round with heavy blue bloom; vine exceedingly hardy. Its earliness makes it desirable for an early market.

Agawam (Roger's No. 15). Berries very large, thick skin, pulp soft, sweet, sprightly, very vigorous, ripens early.

Diamond. Leading early white grape, ripening before Moore's Early.

Pocklington. One of the largest and most showy white grapes of the Concord type.

Catawba. Berries large, round; when fully ripe of a dark copper color.

Lindley (Roger's No. 9). Berries medium to large; flesh tender, sweet and aromatic.

Salem (Roger's No. 53). Bunch large, compact; berry large, round, coppery red, tender, juicy. Ripens with Concord.

Delaware. Red, finest flavor. Bunch and berry small, compact; sweet, thin skin; slow grower; requires good soil.

Diamond White. The leading early white grape, ripening before Moore's Early. White, with rich yellow tinge; juicy, few seeds, almost free from pulp, excellent quality; above medium size, adheres firmly to stem.

McPike. This mammoth black grape has been exhibited in all parts of the country. Its great size, fine flavor and beauty create quite a sensation. The bunches are large.

Worden. (Black)—A splendid grape of the Concord type, larger, better quality and earlier. Vines vigorous, hardy and productive.

Chas. A. Green White. Claimed by the introducer to be a new and valuable variety, a vigorous grower and an enormous yielder of very large and beautiful clusters of excellent fruit.

Brighton. Perhaps the best red grape in cultivation. Bunch large, compact; strong grower and very productive; quality good.

Niagara White. Occupies the same position among the white varieties as Concord among the black; the leading profitable market sort. Bunch and berries large, greenish white changing to pale yellow when fully ripe.

Pomona wholesale price for Concord Grape Vines (only) strong 2 year vines,
25 cents each, 10 for \$2.25, 100 for \$17.50, 500 for \$80.00, 1000 for \$150.00.

RASPBERRIES

Will do well on any soil that will produce a good corn crop. Land should be thoroughly prepared and well enriched; ground bone is one of the best fertilizers. Keep well cultivated and free from weeds and suckers. As soon as they have done bearing, cut out the old wood to give more vigor to the young canes. Plant in rows five feet apart, three feet apart in rows.

Red Varieties

St. Regis Everbearing. A wonderful new variety of Red Raspberry, bears fruit the first season, bears for four months beginning about June fifteenth. The second crop of berries is borne on the ends of the new canes and ripens about the middle of August and continues until frost.

Cuthbert. Large, conical; deep rich crimson; firm, of excellent quality. Vigorous grower, entirely hardy and immensely productive. The best raspberry for general culture.

Marlboro. The best early red raspberry. Hardy and productive.

Loudon. Ripens with the earliest and hangs to the last. Immensely productive and a fine shipper. Very hardy and does not sucker nearly so much as other red raspberries.

Binghamton, N. Y., May 22, 1923.

The nursery stock you shipped me is sturdy and healthy looking.

The berry bushes are fine with well developed roots, much better than some I got from Rochester for which great claims were made, and for which I paid 55c apiece. Fortunately, however, I only got stung for a dozen.

Yours truly,

BURTIN D. SAINT.

CUTHBERT RASPBERRY

Pomona Price for all varieties of Raspberries by express, Strong Plants
10 for \$1.50, 25 for \$2.00, 100 for \$6.00, 1000 for \$45.00.

KANSAS BLACK RASPBERRY

Black Varieties

Kansas. Largest size, strong, vigorous grower, hardy bearing immense crops. Size of Gregg.

Black Diamond. One of the best for home and market use. For drying and evaporating it excels all others. The fruit is large and handsome.

Cumberland. Plants vigorous, hardy and productive; fruit large. Mid-season.

Gregg. Plants vigorous, hardy and productive; fruit above medium to very large.

Plum Farmer. Berry large and very productive, a great favorite in Western New York. A fine picker and one of the best market sorts.

Ohio. A very strong growing hardy sort; fruit nearly as large as Mammoth Cluster; more productive.

Purple Varieties

Columbian. Very large, often an inch in diameter; adheres firmly to stem and will dry on the bush if not picked.

Propagated Where the Best Trees Grow

Select Varieties of Blackberries

This profitable fruit should be planted for garden use in rows five feet apart, with plants three feet apart in rows; for market, in rows six feet apart, with plants three feet apart in the rows. Give the plants the same cultivation as for raspberries.

Eldorado. The best all-round berry yet produced, combining nearly all the good qualities found in a blackberry. The vines are very hardy and vigorous, enduring the winters of the far Northwest without injury, and their yield is enormous. The berries are large, jet black, borne in large clusters and ripen well together; they are very sweet, melting, have no hard core and keep for eight or ten days after picking with quality unimpaired.

Snyder. Extremely hardy; enormously productive; medium size.

Wilson's Early. Large size, black, quite firm, rich, sweet and good. Ripens early and matures its fruit rapidly; retains its color well after picking.

Minniewaska. Wonderful, hardy, productive, good blackberry, has not been forgotten by us, or our old patrons. Its principal points are hardiness, excellent quality, earliness, and continued bearing and productiveness.

Early Harvest. The earliest blackberry and valuable for market. The canes are strong and upright in growth and enormously productive. Berries sweet and of the highest quality.

Erie. Bush vigorous; berry large, round; good quality; early and productive.

Agawam. Ripens earlier than other kinds, and has a flavor similar and equal to the wild berry. Very hardy.

Ancient Briton. Bush hardy and very productive. One of the best old sorts, and still grown in immense quantities by successful market gardeners.

Blower. Large size, jet black, good shipper, best quality, unexcelled productiveness are the main characteristics of this splendid new sort.

Rathbun. Bush perfectly healthy, vigorous, but not a high growing sort; very rarely suckers from the roots. Fruit of largest size, highest quality, borne in great profusion.

Pomona Wholesale Price for all varieties of Blackberries, Strong Plants, (by express)
10 for \$1.50, 25 for \$2.50, 100 for \$7.50, 1000 for \$55.00.

Homer, N. Y., May 28, 1923.

Pomona United Nurseries, Dansville, N. Y.

I want to compliment you on the pleasant, candid "wordy way" which you have in answering letters. Not everyone who dictates can express themselves in such a manner which carries not only conviction but soothes and gives confidence.

W. G. CRANDALL.

Brooklyn, N. Y., June 13, 1923.

Pomona United Nurseries, Dansville, N. Y.

I wish to take this opportunity to thank you for your splendid service and prompt attention to all details pertaining to my order. It is upon a foundation such as this that business success is built.

LOUIS C. DORMAN.

Select Varieties of Asparagus

Asparagus Roots Showing First Year's Growth

Linnaeus Rhubarb. Large, early, tender and fine. The very best of all which is a good paying, all season crop. There is a constant demand for it.

Price of Rhubarb, strong 2 year roots, 20 cents each, 10 for \$1.75, 100 for \$15.00.

Conover's Colossal Asparagus. A standard variety of large size, tender and excellent quality. This variety is known everywhere. You will get more satisfaction out of a bed of asparagus than any other vegetable.

Wholesale Price for strong 2 year roots of Conover's Asparagus, 25 for \$1.00, 100 for \$2.25, 1000 for \$15.00.

Palmetto Asparagus. A very early variety; even, regular size, of excellent quality. No home garden can be complete without it. This is a large growing variety, particularly delicious in quality. Plant in rows 3½ feet apart, and one foot apart in the row. Let the lower ends of the roots extend down as far as they can but do not cover the crowns deep when planting.

Wholesale Price for strong 2 year roots of Palmetto Asparagus, 25 for \$1.00, 100 for \$2.25, 1000 for \$15.00.

RHUBARB

Select Varieties of Gooseberries

Plant in good rich soil and give a liberal dressing of manure every season. Regular pruning every year is essential for the production of fine fruit.

Downing. Large, handsome pale green, and of splendid quality for both cooking and table use; bush a vigorous grower.
2 Year Bushes 45 cents each, 10 for \$4.00.

Houghton's. Small to medium; roundish, oval, pale, sweet, tender, very good; plants spreading; shoots slender.
2 Year Bushes 45 cents each, 10 for \$4.00.

Josselyn. Large size, smooth, prolific and hardy, of best quality. Have been tested over a wide extent of territory by the side of all the leading varieties, and so far is the freest from mildew.
2 Year Bushes 45 cents each, 10 for \$4.00.

Red Jacket. A new red berry of large size and good quality; hardy and very productive.
2 Year Bushes 50 cents each, 10 for \$4.50.

Columbus. Fruit of largest size, oval, handsome, a greenish yellow, finest quality. Plant a strong, robust grower, free from mildew.
2 Year Bushes 45 cents each, 10 for \$4.00.

Due to a Federal Quarantine, we can only ship to the following states Current and Gooseberry Bushes: Connecticut, Illinois, Indiana, Massachusetts, Michigan, New Jersey, Ohio, New York and Pennsylvania.

Select and Best Varieties of Currants

The Currant is one of the most productive and best paying small fruit that we have. There is, we believe, more profit to the acre in currants than any other small fruit.

Wilder. (Red)—Very large; deep red; bunches long. Plants erect, stout, vigorous and productive.

Fay's Prolific. (Red)—A cross between Cherry and Victoria. Of large size, fine flavor, and

claimed to be twice as prolific as the Cherry.

Red Cross. A strong growing variety. Cluster long; berry medium to large, bright red; quality good to best. Very productive.

Wholesale Price for all Varieties of Currants, 2 Year Bushes 30 cents each, 10 for \$2.50, 100 for \$20.00, 500 for \$75.00, 1000 for \$125.00.

Phillipsburg, Pa., April 13, 1923.

I bought trees and bushes from you a few years ago, am well pleased with them, some bore fruit the first year. All are true to name.

A. STRATTON.

Highland Falls, N. Y., April 30, 1923.

Trees shipped on April 25th are healthy, first class and arrived in good condition.
Thanking you for prompt shipment.

FRANK DILLER.

Propagated Where the Best Trees Grow

Select Varieties of Strawberries

The Strawberry delights in good, rich, moist soil, but will grow on any soil which is capable of raising good general crops. By planting early, medium and late varieties, the grower is supplied with fruit during the entire strawberry season. In hill culture plant 15 inches apart each way, in beds 4 feet wide, with alleys of 2 feet between. For matted rows, plant 1 foot apart in rows 4 to 5 feet apart.

NOTE:—Do not order strawberry plants sent by freight. Our patrons order from 50 to 500 trees, and 500 or more strawberry plants by freight. Now the trees should go by freight and the strawberries by express, or small lots by mail. In all cases when desired by mail, add postage at rate of 20c per 100. Always state plainly that the strawberry plants are to be sent by express or mail.

Senator Dunlap. A well tested, early variety, one of the safe sorts to plant everywhere. Fruit good size, regular form, beautiful bright red, glossy, firm, splendid keeper and shipper, excellent quality, one of the best for canning.

Jessie. Large, handsome, roundish conical; firm; of good quality. Plant vigorous and productive. One of the best for home market. Sea-

Wilson's Albany. The old standard sort for preserving and canning.

Haverland. Large long, bright red; a great yielder. One of the best of recent introduction.

Glen Mary. An exceedingly attractive berry, as large as the Sharpless. Color a bright glossy crimson and so handsome that it brings the highest prices in market; moderately firm, and fine in flavor. The plant is vigorous, healthy and very productive, and the berries maintain their large size until the close of the season.

Brandywine. A very late and firm berry; a good shipper, good canner, a good all around strawberry. Season medium to very late.

Sample. Late, of large size and yields enormous quantities of high quality bright red berries. A standard shipping variety.

Pomona Wholesale Price for all varieties of Strawberries, (except Fall Bearing,) (by express) 25 for \$1.00, 100 for \$1.95, 1,000 for \$15.00. By mail postpaid, 25 for \$1.15, 100 for \$2.25.

CORSICAN

Corsican. Is a great strawberry for many reasons. First, it is the biggest berry; second, it is the brightest and best in color; third, it is a great yielder, and producer; fourth, and the most important of all, the foliage is exceedingly vigorous and leathery.

Fall or Everbearing Varieties

Americus. Plant medium sized, foliage medium; fruit light red, heart shaped, of fine texture, has a good heavy root system, a fairly good plant maker, blossoms strongly staminate, good quality.

Productive. seedling of Pan-American and Autumn. Plants model growers, large, deep rooted, sturdy and hardy. Berries medium to

large in size with prominent seeds on the outside, making it a good keeper and shipper.

Superb. The plants of Superb are of good, average size, are strong growers and stand the winters best of all kinds tested. The fruit is very large, roundish, dark-colored, glossy, attractive and smooth. It has the finest flavor.

Pomona Price for all Fall or everbearing varieties (by Express) 10 for \$1.50, 25 for \$2.50, 100 for \$6.00. By mail postpaid, 10 for \$1.50, 25 for \$2.60, 100 for \$6.25.

Evergreens

Spruce Norway—A lofty, elegant tree of perfect pyramidal habit, remarkably elegant and rich, and as it gets age has fine, pendulous graceful branches; it is exceedingly picturesque and beautiful. Very popular, and deservedly so, and should be largely planted.

Price of Norway Spruce 18 to 24 inches, 75 cents each, 10 for \$7.00, 100 for \$50.00. 2 to 3 feet, \$1.00 each, 10 for \$9.00.

Arbor Vitae American—This is one of the very finest evergreens for hedges. It is very hardy, and if set at the proper time with care and without undue exposure, it may be relied upon to live. **Price**, 18 to 24 inches, 75 cents each, 10 for \$7.00.

Juniper Irish—Very erect and tapering in its growth, forming a column of deep green foliage; a pretty little tree or shrub, and for its beauty and hardiness is a general favorite.

Price of Irish Juniper, 2 to 3 feet, \$1.50 each.

Hedge Plants

CALIFORNIA PRIVET HEDGE

California Privet—A vigorous-growing variety, of fine habit, thick, glossy, nearly evergreen leaves. Of all ornamental hedge plants this is the most highly prized. If cut to the ground one or two years after planting, it makes a very thick hedge right from the bottom, sending up many strong shoots.

Wholesale price of California Privet, strong 2 year plants, well branched,
18 to 24 inches high, 15 cents each, 10 for \$1.25, 100 for \$8.00, 1000 for \$75.00.
2 to 3 feet high, 25 cents each, 10 for \$1.50, 100 for \$10.00, 1000 for \$90.00.

Barberry Thumbergii—From Japan. A beautiful shrub of dwarf habit, not growing more than three feet high; covered with yellow flowers, followed by scarlet fruits on long stems.

Wholesale price of Barberry Thumbergii plants, 18 to 24 inches, well branched, 45 cents each, 10 for \$4.00, 100 for \$35.00. 12 to 15 inches, well branched, 35 cents each, 10 for \$3.25, 100 for \$30.00.

Buying Choice Trees and Plants by Parcel Post

It is easier to buy by mail than to go to a store. In many instances it is possible to buy a better quality of trees and plants by mail than can be procured in other ways.

The greater portion of our business is transacted through the mails. The planter in California can purchase with as great an assurance of satisfaction as if he personally selected his trees and plants.

Trees and Plants ordered are personally selected. One from our office, who has spent an entire lifetime in the business, carefully selects the trees and plants and follows instructions closely.

Our method of packing enables us to ship to remote sections with great success. We believe that we give more attention to digging and packing than is customary.

Our Mail Order Trees and Plants are flourishing in localities where the smoke of the railroad engine is never seen, and at other distant points where railroad charges would deter you from ordering.

Varieties of Trees and Plants—By Parcel Post Postpaid Apple Trees by Parcel Post

For this season's mailing we have an extra fine block of one year old trees. Such trees that every buyer will be pleased with. The varieties are: Northern Spy, Yellow Transparent, Wealthy, Baldwin, York Imperial, Duchess, Wagener, King, Jonathan, McIntosh, Banana and Delicious.

Parcel Post Price of Apple Trees 3 ft. high, 50c each, 10 for \$4.85.

Standard Pear Trees

We have by a special method grown some mailing size trees of a few varieties as follows: Bartlett, Kieffer, Clapp's Favorite, Seckel and Flemish Beauty.

Parcel Post Price of Pear Trees 3 ft. high 75c each, 10 for \$6.50.

Cherry Trees

For this season we can dig some extra fine mailing size trees, very strong, well rooted trees, of varieties as follows: Early Richmond, Montmorency, English Morello, Dyehouse, Windsor, Napoleon and Black Tartarian.

Parcel Post Price of Cherry Trees 2 to 3 ft. high 85c each, 10 for \$7.50.

Dwarf Pear Trees

We can supply the following varieties: Duchess, Seckel, Clapp's Favorite, and Bartlett.

Parcel Post Price of Dwarf Pear Trees, 2 to 3 feet high 55c each, 10 for \$5.00.

Plum Trees

Plum trees generally grow so heavy at one year old that it is impossible to get mailing-size trees, but we have some nice trees, strong, heavy rooted, three feet high, of varieties as follows: Abundance, Burbank, Climax, Red June, Wickson.

Parcel Post Price of Plum Trees 3 ft. high 60c each, 10 for \$5.50.

ORNAMENTAL SHRUBS, ROSES AND VINES—Strong, well rooted bushes of all varieties offered can be sent by Parcel Post if 3 CENTS EXTRA IS ADDED TO EACH PRICE QUOTED IN THIS CATALOGUE.

Peach Trees

We offer varieties of mailing size peach trees as follows: Niagara, Elberta, Early and Late Crawford, Champion, Carman, Fitzgerald, Reeve's Fav., Chair's Choice, Greensboro, Kalamazoo and Crosby.

Parcel Post Price of Peach Trees 2 to 3 ft. high 50c each, 10 for \$4.50.

Quince Trees

We offer three varieties of mailing size quince trees: Orange, Bourgeat and Champion. Very strong, heavily rooted, 2 to 3 feet.

Parcel Post Price 65c each, 10 for \$6.00.

Dwarf Apple Trees

Our list of varieties is: Delicious, McIntosh, Baldwin, Grimes' Golden, Wealthy and Yellow Transparent.

Parcel Post Price for Dwarf Apple Trees 2 to 3 feet high 70c each, 10 for \$6.50.

Grape Vines

Worden. A splendid black grape.
Moore's Early (Black.) Bunch and berry large, round with heavy blue bloom.
Concord. Bunch large, compact, berries large.

Brighton. The best red grape in cultivation.
Diamond. Leading early white grape.

Niagara. Occupies the same position among white varieties as Concord among black.

Parcel Post Price of Grape Vines 1 yr., 35c each, 10 for \$3.25.

We pay postage on all Trees and Plants offered by mail.

Advantages of Fall Planting

POMONA

Pomona United Nurseries
DANSVILLE, N. Y.

IT IS CONCEDED by the largest and most successful orchardists that trees, especially Apples, Pears, and Sour Cherries, planted in the Fall give the best results. Some of the reasons why planters like to set in the Fall:

1st: Fall-planted trees become firmly established long before winter sets in, and as soon as Spring opens up, start growing; while with trees planted in the Spring it is oftentimes a month or more before they began to put out any root growth, although the part of the tree above ground seems to be growing rapidly.

2nd: Stock planted in the Fall gets the benefit of the late Fall and early Spring rains, which is of vital importance; on the contrary, stock set in the Spring frequently has to suffer through a dry summer, which it is utterly unprepared to do after having been so newly transplanted.

3rd: Experiments at the different Experimental Stations have proven that immediately after planting in the Fall the trees begin to put out small fibrous roots which take hold firmly in the ground, thus absolutely insuring an early start in the spring.

4th: If the customer is not able to plant until Spring, or the climate is too cold, it is wise to have the stock delivered in the Fall, so that he can trench it in carefully, and seize the earliest moment in the Spring to set it out, instead of losing valuable time in the Spring.
